# KWC

KWC AQUATIMER - A3000 open
Electronic WC controller for cistern

Modell-Linie: AQUATIMERA3000OPEN | AT3O0051
Flushing systems | Electronic WC flushing systems

KWC-No.

2030021142
AQUATIMER - A3000 open electronic WC controller for cistern, with piezo switch

AQUATIMER - A3000 open electronically controlled WC control for concealed cistern with option for external controlling options such as setting the parameters and comunciation via ECC function controller. Consisting of waterproof electronic module with additional input for sensor switches (provided by customer), maximum distance to electronic module 5 m, servo motor, two waterproof electric t-junctions for connection to system cable, frame and stainless steel cover plate with integrated piezo switch and concealed screw connection, 24 V DC.

Technical Data

|	
Built-in fitting model	Finishing section
Cover plate height	148 mm
Cover plate width	207 mm
default automatic hygiene flus	24h after the last activity
functional principle	electronic self-closing
material casing	stainless steel
material code casing	1.4301 Chrome Nickel steel V2A
material fitting	synthetic
overall height	148 mm
overall width	207 mm
Parameterization	network
power supply connection	A3000 open 24 V DC
power consumption	4 Voltampere
Type of power supply	Transformer
protective system IP	IP68
surface finish casing	brushed
with transformer/power supply	no
type of flushing fitting	for WC cistern
type of mounting	built in installation
type of operation	sensor operation
type of sensor	piezo-electronic sensor
