

KWC F5E - A3000 open Electronic WC flush valve for in-wall installation

Modell-Linie: F5E | F5EF4005
Flushing systems | Electronic WC flushing systems

KWC-No.

2030068203

F5E - A3000 open electronic WC flush valve for in-wall installation, especially suitable for facilities at risk of vandalism

F5E - A3000 open WC flush valve DN 20 as finished installation kit for in-wall installation in basic installation kit, electronically controlled. Especially suitable for facilities at risk of vandalism. With waterproof electronic module with additional input for sensors to be provided by the client, maximum distance to the electronic module 5 m, solenoid flush valve including enclosed throttle insert for reducing

flush volume, waterproof electric T-junction for connection to system cable, stainless steel cover plate 190 x 245 x 2 mm with ventilation holes, mounting from the front with safety screws, including piezo push-button. Activated hygiene flushing 24 hours after the last activity. With facility for parameterization, cleaning deactivation and communication via ECC2 function controller, 24 V DC.

NEW

Technical Data

functional principle

electronic self-closing

type of flushing fitting

WC flush valve

type of mounting

in-wall installation with box

type of sensor

piezo-electronic sensor
