KWC-No.

3600000383

F5E electronic WC flush valve for in-wall installation

F5E WC flush valve DN 20 as finished installation kit for in-wall installation in basic installation kit, touch-free, opto-electronically controlled. With solenoid flush valve fitting group I including enclosed throttle insert to reduce the flush volume, holding frame with profile seal and stainless steel cover plate 190 x 245 mm with integrated sensor and covered screw fixing. Depth adjustability 20 mm. Parameterisation and communication possible via optional bidirectional remote control. Optionally for battery operation with 6 V

lithium battery (CR-P2) per fitting or separate power supply via power supply unit 6.75 V/12 V DC or AQUA 3000 open system accessories.

Battery compartment including battery or power supply unit with extension cable or AQUA 3000 open system accessories must be ordered separately.
