NEW

F5L-Therm thermostatic single-lever mixer DN 15 as wall-mounted mixer for wall mounting with lockable swivelling spout, for sanitary facilities. Thermostatically controlled mixer cartridge with expansion element and active scald protection as well as adjustable and turn-proof temperature stop and ceramic disc technology. With mechanism for optional water hygiene unit with C-module for automatic hygiene flushing and readout of statistical data. For connection to hot and cold water. Scald-protected, safe-touch

housing, all-metal construction, polished chromium-plated brass. Volume-reduced, smooth water lines made of brass without nickel coating, decoupled from the tap housing. With thermal insulation components to reduce heat transfer from the tap housing to the cold-water line. Laminar jet controller with integrated flow rate controller 6.0 l/min. With adjustable and lockable connections with backflow preventers and strainers, fully covered by depth-adjustable screw rosettes. Projection 195 mm.
