

FX-M Modular
wash place unit
for the future

KWC

KWC Professional
Modern design &
intuitive operation
for washrooms

Technological and design perfection: FX-M is a compact and modular designed wash place unit for public and semi-public sanitary rooms of the future.

Perfect combination: FX-M and VARIUSsign ETON washbasins made of sturdy resin-bonded mineral material (MIRANIT).

FX-M

Wash place unit

The smart, lighted operation of the wash place unit is absolutely intuitive and touch-free for the user.

Seamless Design

Integrative shape and reduced complexity improve cleaning and hygiene

Touch-Free Interaction

Hygienic and intuitive operation by touch-free activation of water, soap and air

Welcome Light Function

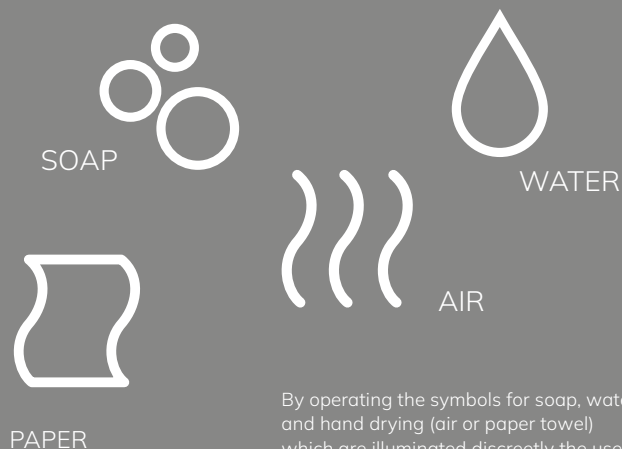

A light bar starts glowing while the front sensor detects the approaching user

Reactive Light Bar

Invites and guides the user and optimizes the usage process

Wash Spotlight

A spotlight on the hands improves user experience while hand washing

By operating the symbols for soap, water and hand drying (air or paper towel) which are illuminated discreetly the user interacts with FX-M easily.

All technical components are integrated in the modern housing.

FX-M wash place unit „Water-Soap-Air“

- Touch-free opto-electronically controlled for preset delivery of premixed hot water
- Touch-free soap dispenser for liquid soap
- Touch-free hand dryer
- Opto-electronically controlled lighting up pictograms and wash place lighting
